

No.	Title	Authors	Journal
1	Bioinspired 8-hydroxyquinoline-Fe₃O₄ nanostructures from Citrullus colocynthis exhibit strong antibacterial, antifungal, and anticancer effects Original Article	Dr. Milad Mohkam	Scientific Reports 16(1):undefined-undefined
2	Improving Microbial Quality of Ostrich Meat Using Mechanically Deboned Chicken Meat Protein Nanocomposite Coating Incorporated With Ziziphora clinopodioides Essential Oil and Eugenol During Cold Storage Original Article	-	Food Science and Nutrition 14(6):undefined-undefined
3	Microbial regulation of immune tolerance during embryonic implantation and pregnancy Review	Dr. Milad Mohkam	Journal of Reproductive Immunology 175:undefined-undefined
4	Molecular farming: Expression of recombinant Ocriplasmin in genetically transformed root culture of Nicotiana tabacum Original Article	Dr. Ali Sharafi	Caspian Journal of Environmental Sciences 24(2):undefined-undefined
5	Clove oil nanoemulsion: a proposed alternative to synthetic preservatives in pharmaceuticals, cosmetics and foods Original Article	-	Journal of Food Measurement and Characterization 20(2):undefined-undefined
6	Ultrasound-assisted nanoemulsion of Cinnamomum zeylanicum oil with improved antimicrobial, antibiofilm, and antioxidant activities for food applications Original Article	Dr. Ali Sharafi	Journal of Food Measurement and Characterization 20(2):undefined-undefined
7	Cancer Epigenomics in Precision Medicine Book Chapter	-	Personalized Cancer Therapy Advances in Precision Medicine for Targeted Cancer... undefined:undefined- undefined
8	Genomics and Key Alterations Book Chapter	-	Personalized Cancer Therapy Advances in Precision Medicine for Targeted Cancer... undefined:undefined- undefined
9	Neuroprotective effect of rosuvastatin-loaded nanoemulsions against lipopolysaccharide-induced neuroinflammation and oxidative stress Original Article	Dr. Hamid Rashidzadeh	Journal of Drug Targeting 34(1):undefined-undefined
10	Deep Tumor Penetration Using Nanoparticle Delivery Systems: Programmed Design Strategies and Emerging Evaluation Platforms Review	-	International Journal of Nanomedicine 21:undefined-undefined
11	Engineering the pPICZalphaA Vector for Optimized Recombinant Protein Expression in Pichia pastoris: Substitution of Antibiotic Resistance and Auxotrophic Selection Markers Other	Dr. Ghasem Bagherpour	Koomesh 28(1):undefined-undefined
12	Electrospun thiolated nanofibrous mats loaded with Zataria multiflora nanoemulsions for treating recurrent aphthous stomatitis Original Article	-	Journal of Biomaterials Science Polymer Edition undefined:undefined- undefined
13	Exome Sequencing Identifies Variants in MLH1 and ERBB2 as Potential Cancer-Predisposing Factors in Familial Early-Onset Colorectal Cancer Original Article	Dr. Neda Mohsenpour	Kaohsiung Journal of Medical Sciences 42(7):undefined-undefined
